

This list is a work in progress. An (x) generally means we have a copy of the book and this book can be sent directly to your kindle. An (L) generally means that it is available on Logos, a Bible program that we can download onto your tablet if you would like to read one of those books. If it is a book you would like to read that doesn't have an (x) or is not on this list, please let me know and I will try to get it for you. The numbers in front of the book titles are simply for sorting purposes and have no rating value.

*Please get prior approval for any book you read, regardless of whether it is on the list or not. (There are many books on this list that are well below or above your reading level).*

*A reading tablet is available if this would be easier to use. Also, if you already have a print copy, you can use this instead of digital. We can also get you a library card in Reedsport if you would like to check out print books instead of read in digital format.*
